Deleted measurement: 6

Actualizar una medida: pk → 10, value → 574

```
[{"model": "measurements.measurement", "pk": 10, "fields": {"variable": 1, "value": 574.0, "unit": "sad", "place": "asd", "dateTime": "2021-08-30T01:51:45.149Z"}}
```

Se puede ver que “value” se actualizó al nuevo valor comparando con la captura de consultar medida.
